Via Belgio porta “E”

tel. +39 045 8298036
verona.fiere@kuehne-nagel.com

Notify:
Name of the exhibition ................................
Exhibitor’s name ......................................
Hall No. ………... Booth No. …………………..

All freight has to be “prepaid” up to the airport / port / terminal instructed in § 3. Any “freight collect” shipment will be subject to a 10% Outlay Commission.

All commodities subject to sanitary inspection with regard to pests and pathogens – e.g. wooden packages from China - must undergo Phytosanitary Clearance at the Border Entry Point of the European Community. Failure to do so will result in the return of the goods to before said E.U. Border Entry Point to pass the procedure.

PLEASE DO NOT USE EXPRESS COURIER SERVICES for your products – especially food, beverage and other agricultural products or derivatives – because your shipment will be stopped by Customs at courier’s Italian Entry Hub. Instead, use general cargo air freight services as instructed above. Exhibitor using courier services for his products should be ready to bear delays and additional expenses.

5. PACKING

Exhibitor/Customer shall be responsible for consequences of improper packing!!!

1) Protection against damage and rain:
As the exhibits are repeatedly loaded and unloaded during transportation, shocking and bumping will sometimes be inevitable. Exhibits will be placed outdoors many times, including open-air storage at the venue before and after the exhibition. Therefore Exhibitor/Customer must take necessary precautions while packing the goods since we will not assume any responsibility for damage, especially when the return exhibits are to be packed with used materials. It is proven that packing is often damaged already during unpacking.

2) The case:
The case must be strong enough to avoid damage during transportation as well as unpacking and in particular, be suitable for repacking. Packing in cartons, plastic covers and similar materials is not considered adequate for repeated handling, especially for valuables or delicate equipment.
Cases for heavy exhibits should be constructed so that the sides are joined by bolts rather than by nails and screws. This will prevent damage during unpacking and will save considerable time during the exhibition breakdown. Please mark the front side of the case clearly to ensure correct placing and indicate all lifting points together with the centre of gravity. We will not provide any packing materials for exhibits, so Exhibitor/Customer should ensure that he has adequate and appropriate packing materials for repacking after the end of the show.

When exhibits are repacked with used packing materials, the packing is regarded as no longer suitable to protect the contents against damage and/or moisture comparing to the original one. Exhibitor/Customer should therefore bear the responsibility for any consequences arising there from.

3) Maximum dimensions, weight and floor loading capacity:
Due to restrictions of the exhibition halls, special arrangements are required when constrains reported in the Exhibitor’s Manual are exceeded. Please note that on the upper floors mechanical lifting equipment can’t be used while dimensions and capacity of elevators are limited.

Exhibitor/Customer shall be responsible for all consequences if he sends to the show any items with dimensions and weight that exceed the limits reported in Exhibitor’s Manual (Technical Regulations, § 2.1.1, page 5/19).

4) Case marking:
To ease identification and on-site operations please mark each package as follows:

Name and dates of the exhibition: ...........................
Name of the exhibitor: ..............................
Hall No. ......................... Stand No. ...........................
Case No. ........................... out of ...........................
Dimensions in cm. (LxWxH) ..............................
Gross Weight in Kg. ..............................

6. (TRANSPORT) INSURANCE

The official tariff does not include any insurance coverage about transport from your side to Verona show site and back. Therefore Exhibitor/Customer should arrange a proper round-trip all risk insurance policy for his merchandise.

On-site operations are covered by insurance as specified in § 13.II.K

7. CUSTOMS CLEARANCE

Goods should reach the venue under T1 Customs Bond because of faster clearance. Please contact us for instructions.

We will handle the Customs formalities on Exhibitor’s/Customer’s behalf. Upon arrival, the goods may enter the venue on Temporary basis only; Permanent importation is allowed only after the show is over and against payment of Italian Import Duty, VAT & Tax. Since goods are admitted inside the venue under customs bond only, Exhibitor may not allow their merchandise to be taken away from the fairground without prior Permanent Import Customs Clearance.

Cigarettes, wine, spirits, hydrocarbon oil, textiles and mostly all give-aways are dutiable goods in Italy. Exhibitor/Customer sending such goods to Italy should be prepared to reimburse us for Duty, VAT & Tax.

8. ON-SITE HANDLING OPERATIONS

Exhibitor/Customer must be on site to direct the operation of unloading, delivery to stand and positioning. If a mobile crane or forklift is required for unloading or installation of equipment, Exhibitor/Customer should send his handling instructions to us in advance. A detailed layout should also be provided to better assist our on-site operations. If Exhibitor/Customer does
not arrive on-site in time and requests us to unload and place exhibits unsupervised, we shall handle this operation at the Exhibitor’s/Customer’s risk.

Upon request we can assist in physical unpacking and installation of exhibits, however, Exhibitor/Customer must supervise and be responsible for these operations. KN Expo cannot carry out any unsupervised (un)packing.

Similarly, during exhibition closing Exhibitor/Customer must supervise the dismantling, repacking and reloading of exhibits, especially for delicate or heavy equipment.

Our liability ends with the delivery of the exhibition goods or empty packing materials to the Exhibitor’s/Customer’s booth even if the Exhibitor/Customer and/or his representative is absent.

9. ON-SITE STORAGE

It is possible to store empty packages and other objects during the show. Exhibitor/Customer shall collect labels at our on-site office.

1) Empty Storage:
The Empty Storage is for empty packages only and crates must be labelled with the coloured tags marked “VUOTO/EMPTY” on two adjacent sides of each case as soon as they can be removed from the booth. Do not store anything in packages declared/labelled as empty!!! Any consequences arising from the hidden storage of goods inside packages declared/labelled as “empty” are for the exclusive account of Exhibitor/Customer.

2) Full Storage:
Anything else than empty packages is kept in a separate, closed area and has to be marked with the yellow label tagged “PIENO/FULL” on two adjacent sides of each package. Never leave such crates unattended in the hall/booth until they have been picked up by our staff. All full-storage-crates must be perfectly closed and sealed and the goods inside adequately fastened to prevent damage during on-site handling. Exhibitor/Customer shall be responsible for consequences of improper packing and fastening!!!

10. CLOSING PROCEDURES AT THE END OF THE SHOW

Exhibitor/Customer who did not decide if to return his goods to the country of origin is requested to inform us about his final decision no later than the first day of exhibition. If Exhibitor fails to give explicit instructions, no custom formalities can be carried out and his exhibits will be left to Customs disposal, all charges being only for Exhibitor’s/Customer’s account.

The return of empty packages will start the night after show’s end and only after Organizer’s approval. The responsibility of KN Expo ends with the return of the empty packages to Exhibitor’s booth, even in his absence.

For security reasons, full packages will be returned to the booth only after Exhibitor/Customer will show up in our on-site office to claim them.

Please do not leave the exhibition booth before you physically handed over your packed items and written (shipping) instructions to our staff. Those who leave their (packed) goods on the booth before being collected by Kuehne + Nagel staff, do this exclusively at their own risk. Because of huge demand, please do not expect your goods to be picked up immediately from the booth.

Once documents have been processed with Customs and the relevant Transport Department, changes will not be accepted. The return of exhibits will be arranged when customs formalities have been finished and exhibits handed over to the carriers for re-export. Beware, the demand for transport facilities is great and Exhibitor/Customer should not expect his cargo to physically depart from Italian (air)ports immediately. If any express export service is required, this must be requested at least one month in advance and full instructions with suitable documentation for return transport should be sent to us at the same time.
11. SOLD EXHIBITS

All sold exhibits must be repacked at the end of show and removed to the customs bonded warehouse until the necessary customs formalities are done. From the time exhibits are placed in bonded storage, we will assist in the handover protocol of sold commodities. Both the (Italian) buyer and the Exhibitor/Customer will be responsible for the presentation of the necessary documents to customs so that temporary status can be changed into a permanent customs entry.

Usually a three month bonded storage period, pending sale, is the maximum term allowed before customs impose any remaining items to be re-exported out of Italy. Exhibitor/Customer should be aware that if mentioned three-months’ term is trespassed, his exhibits will be returned to the country of origin without any further notice and at his expense. It is therefore important that Exhibitor stays in close touch with the potential (Italian) buyer to monitor ongoing operations and avoid undesired extra charges.

12. PAYMENT TERMS & GENERAL CONDITIONS

Companies using Kuehne + Nagel s.r.l. Expo & Event Logistics or its appointed agents will be invoiced by them for all services.
